

Why community cabinet CRIME REDUCTION PROGRAM, 25?

Police Crime Report No 273

How (Supreme Court) clarity solves fraud?

Media report 97% of victims of crime never get their money back.

Evidence and proof the legal system is corrupted by fraud.

How can we prove this by law, beyond a shadow of doubt?

By mathematics backed up by criminology and psychology to control fraud.

FIRST THE EQUATION

Police protocol + ethics = team closure.
CIB direct

- (Unlimited) Patience and time will solve this case, then court closure by law!!!
- Hence the need to create Badja Pty Ltd as a 'Dead Corporate Body' to expose Supreme Court Judges Mackenzie, White & Muir ruling "Mediation" - "disclosure" to gain

MUIR'S "NO CLARITY" - PROVES FRAUD

As Colonel/Judge Pat Shanahan directed on behalf of the Queensland Law Society correction "Follow the court transcripts and the money trail and you can win this case." As the first step in gaining law reform. To expose the Police and court failure to control fraud, **Australia's No1 crime**. You must understand Magistrates, District Court Judges and Supreme Court Judges honesty to the community with their court transcripts. They expose the deficiencies in the legal systems that require technical change. As backup Grahame Ledwidge's scapegoat Risk Management for the Commonwealth Bank confessed "We never said we do not make mistakes, you should have known." The obvious problem is that Magistrates, District Court Judges, Supreme Court Judges and Commonwealth Bank Managers do make mistakes. It's taken for granted, based on society's dependence on self greed and self gain, that the community, clients or bank customers will pay the price based on a 97% scapegoat Risk Management plan. Hence our goal of a 97% Police rescue package, which will come about by education and training in law reform to provide quality of life. To protect in particular the mums and dads retirement funds, first home buyers, bank staff, both small and big business and hence the community at large.

Spending years with various formulas, to gain the Premiers no limit solution, this time the 'Can Do' Lord Mayor Campbell Newman's solution (Neighbourhood Fair). The Lord Mayor gave an invitation to write a letter, in political circles known as a press release. (Not seen as a standard 'Yes Minister' joke as seen on TV) What we require is a press release backing up the Premier of Queensland in a determined effort to smash fraud as Australia's No1 crime. To gain the full backup and support of journalists and media wanting a balanced story, with the revelation of the facts. This will make it clear to both the community and for Supreme Court Judge Muir who confessed "I have no understanding or clarity" to liquidate our building construction company, Badja Pty Ltd over a CIB ignored \$10,000 insurance scam. ***

See the facts to solve the multiple fraud

1. As the next step the Magistrates and Judges must make a correction on the basis that they were fooled by one of their own Court Officers in the prisoner Davida Ellen Williams who was used as a catalyst to prove this case of fraud. To assist the Queensland Law Society, Bar Association, Legal Services Commission, DPP, APRA, ASIC, CALDB, etc, as a Police checklist used as evidence and proof by CIB and legal advice. To set traps to win in court. As confirmed multiple fraud is a convoluted story, there is a need for your revision, to ask for Supreme Court clarity. To reverse Supreme Court Judge Muir's decision as he was tricked by organised crime. *****
2. Fraud Squad Detective Sergeant Brett Heath has no video taped interview of the Fraud Squad investigation as

evidence and proof of **Police fraud!!!**

3. Hence we must provide the evidence and proof of the Fraud Squad's fraud: - Detective Sergeant Brett Heath's first question "Where is your copy of the Commonwealth Bank loan agreement?" Our reply, "The bank loan agreement went missing from our file." (With our ex-DPP Barrister, later gaoled but not known as a criminal at the time, in control of our case and holding our records.)
4. It felt like the detective was directed to ask the questions. Why does the bank refuse to give disclosure or assist with any relevant details? Would this confirm not part but complete confessed Commonwealth Bank fraud to gain bank closure? To satisfy Chris Watts CBA mediation expert direction.
5. We told the detective, "We did not need the bank loan agreement; we had the results of the loan agreement." (The bank confirmed incomplete bank loan agreement had caused the loss of millions of dollars, to mums and dads retirement funds, first home buyers and the developer.) The detective then replied "We all lose money, do not expect us to do the work for you. If you do not get your act together, you will be out the door so fast your bum will not touch the ground and I will be happy to tell my inspector." (Note the clue to his inspector) Was his inspector seen as a threat? Considering the Police Commissioner and Chief of Staff Superintendent Peter Martin needed an answer for the Premiers solution. We need a real answer to community's awareness of billion dollar fraud in the building and construction industry. As requested by the Brisbane City Council Internal Investigation Department. We reported to the Lord Mayor, his team advised, "They do not have a Police Force responsible for laying fraud charges." (Creating a huge vacuum for organised crime in the community.) Having community, family and friends working in the Brisbane City Council Planning and Building Department, Inspection and Valuation Section, who act as 'whistleblowers' and backup volunteers. They urgently need this community team press release to control organised crime. *****
6. Let's focus on the multiple fraud: - Understand the CIB who confess crime is serious business. As the Lord Mayor's minders and security directed in brief it's no picnic in the park. Fraud should be resolved in Supreme Courts by Judges. To Supreme Court Judge Muir's satisfaction. After he was tricked and cheated by the ex-con DPP Barrister Davida Ellen Williams who fooled all of us by confessed abandonment. *****
7. We told the detective quote "Rob Wilson our Head Contractor had lied in court, 422/2000-2 Holland Park Magistrates Court." The detective replied "You cannot

say Wilson lied, you have to say he perjured himself. The facts are when Wilson was asked by Magistrate Austin to read Baseline Civil Engineers report on intimidation and standover tactics in claiming up to 300% for extras, **he refused and began to panic. He made false claims.** For example he stated **"I did not use your earthmoving equipment."** In general our case was won and his Solicitor James Conomos became aware of that fact. We provided a photograph of the Head Contractor's son-in-law digging a **false and unused trench confirmed by Wilson, not part of the contract.** (Hence our photograph as evidence and proof.) Again Wilson perjured himself. **A trench that gave the illusion of proper work done.** The photograph provided evidence and proof of **(a) they did use our earthmoving equipment and (b) the trench was designed to extend part of the gap from 4 to 16 months.** The illusion of extending the subdivision for 12 months by digging a trench as an example is fraud, where again the Head Contractor perjured himself. The trench served another purpose. **Rain filled it with mud to run across Summitt Street to create part of a \$10,000 insurance scam. To accommodate his ruse as directed by his legal counsel "Not to complete the subdivision and by vexatious acts claim ownership by non completion."** Ignored by Magistrate Austin's confession of guilt quote **"Yes, well, I do not care what (anyone from) the Police Minister down has to say."** Hence the urgent need for the **A.G-Police Minister's correction. Lord Mayor Newman's ground breaking invitation to write a letter to create a press release.** To back their community team, their Internal Investigation Department and support the Attorney General's Minister Rod Welford and the Police Minister Judy Spence who were in shock at the truth of their **'Yes Minister' explained bureaucratic stuff up supporting organised crime.** As confirmed by the Brisbane City Council Internal Investigation Department's direction quote **"To set out this case so the Queensland Police get the credit for a job well done."** Thanks to Superintendents Hopgood and Martin backing up Police Commissioner Bob Atkinson.

8. The importance of primary law for the Commonwealth Bank and the courts to understand with an endless list of experts, **this is a no limit Premier's solution based on mathematics backed up by a team by law to win.** Hence we can be judged by the company we keep, in **exposing organised crime.** Now to the planned detail hidden by Detective Sergeant Brett Heath, the Police Operations Branch and **the CMC confessed four year delay.** (Due to DPP Barrister/prisoner confessed fraud.)
9. The reality of life in talking with Premiers, Police Ministers and Lord Mayors, is their need for urgency and to be

accountable. To do as the Fraud Squad directed, **"To get our act together."** To expose the fabricated CIB charge of Trevor Kidd, covered up by Davida with another DPP-CIB commonly used scam. To charge suspected criminals in the hope of gaining a confession of guilt using the Police policy and the skill of the Public Prosecution Department. To use an **"Attorney General's release not to sue the Police for wrongful arrest"**, to cover up this injustice. You need to understand that with 12 Judges involved, it was easy for Supreme Court Judge Byrne, to believe that due to **the law of accession and association, as he knew Davida was a criminal,** therefore we employed Davida with the same intentions of a criminal outcome. Hence we cannot stress enough the importance of the bank Solicitors Clark and Kann and Allens Arthur Robinson and the investigation by private investigators, etc, to get to the truth of the matter. **This is truly confessed Commonwealth Bank fraud.** Due to the fact that the bank sacked their Relationship Manager and made him and the customers and their clients the victims. Due to the Commonwealth Bank confession in mediation for self greed and self gain explained as quote **"We work for the shareholder's profits and the top end of town."** That is why we worked with the Relationship Manager James Pitman and tried to have the bank loan agreement rectified according to the law but we were told by the Relationship Manager that **"Due to staff cutbacks, if you want the loan, supply the loan agreement as directed."** (To mean, no deposit and no title) That means a contract drafted up to initiate another contract similar to selling off the plan. Hence apparently the only bank problem lay with no deposit contracts. Hence the importance of a Relationship Manager again to balance the story by law to give a true account of the details. Hence his confession and transfer to Westpac **to try and hide the truth!**

10. We wrote off \$250,000 of an anticipated \$1.5million profit **under James Pitman's direction** to purposely sell land **under the true value,** valued from \$92,500 upwards at the time. We sold the land to our accountant Tim Allen for \$75,000, therefore in paying him \$10,000 to gain a **damages confession** he has subsequently lost up to \$125,000 in the value of the land only, as the land was valued by Hooker Realty from \$200,000 a block just after completion. **See valuation trap.** (Reference Justice Susan Kiefel)
11. **We truly suffer from information overload.** The Magistrates Court Registrar Brisbane (God bless him) identified the Barristers scams for self greed and self gain. Note the cost of \$500,000 in legal expenses in an effort to bankrupt the developer. Knowing the history of breast cancer in our family, Grahame Ledwidge confessed **"Breast cancer and divorce is a death sentence."**

Hence his statement **"You are not part of our team."** Chris Watts as mediation expert saw the obvious with his statement to my son quote **"You have a big thing about teamwork."** Chris not being in a position to go directly against Grahame Ledwidge's scapegoat Risk Management policy as the damage had already been sustained. Chris Watts like the 12 Judges and 3 key Magistrates involved gave notification of the multiple fraud and left it up to the banks clients ability to follow his direction in setting out this case on how to win. In a similar fashion to the bank's Solicitors Clark and Kann who gave a Supreme Court affidavit and showed that **not all Solicitors act for self greed and self gain.** Grahame Ledwidge's scapegoat Risk Management was endorsed by our ex-DPP Barrister who confessed **"You would be surprised what goes on behind closed doors, abandonment."**

12. Hence our case is won by law. We will find more experts like Lord Mayor Campbell Newman and his team of both Liberal and Labor and via community principles technical changes will be made as long as there are **'whistleblowers'**, sponsors and volunteers who as directed by the Legal Ombudsman Jack Nimmo ex-CIB put it **"Forget about the money for the moment and concentrate on the law."** (Natural holistic justice) One wonders, does Supreme Court Judge Muir, District Court Judge Brabazon and Magistrate Austin lay awake each night as we do and wonder how it would feel if they **let truth be their guide?** Ours is a community based problem and we wait patiently for our accountant Tim Allen to be accountable to the Church in reference the \$10,000 we paid him for a **damages confession.** To prove our CIB trap of not paying \$10,000 to expose the **'bagman's'** \$10,000 false insurance claim/scam. (The need to study the detail to the fraud with 300% claims for extras) As the Brisbane City Council, City Hall Administrator John Dwyer understood and confirmed as a senior Council Officer/expert by law. After listening to the speech given by the Police Commissioner on fraudulent blowouts on building costs. (Hence the need for a press release by law and natural progression-criminology.)
