

**Why community cabinet
CRIME REDUCTION PROGRAM, 25?
Police Crime Report No 277**

**As seen on TV the promised Brisbane
Lord Mayor's press release: - why**

BALANCE THE FUTURE?

**As simple as the theory and the practice,
the need to preserve water.**

Why the crime stoppers direction

DOB IN A CRIMINAL?

**How do we smash fraud, our No1 crime?
Is self regulation enough?**

Why write Police Crime Reports?

**During an interview, reference the
Fitzgerald Report, two CIB Detectives
directed "Keep your mouth shut or we will
be back." Later Police Commissioner Terry
Lewis was put in prison for 14 years.
Why did the Police call it**

THE JOKE?

**What did we learn? Police ethics/protocol,
The court joke "It's not relevant,"
The public service "It's not our problem,"
The community "Who cares?"**

**As evidence & proof, what has our Police
Minister done armed with 280 Police Crime
Reports? Why has Asst. Com. Pat Doonan
confirmed how the fraud came about?**

**Why was there no secretary or record of
our meeting, just as there was none prior
at the fraud squad with no video tape?**

**Why ignore standard Police ethical
standards and protocol to create**

PROVEN SUPREME COURT FRAUD?

How to put theory into practice, to create a winner?

Standard management procedure, write it down as crime reports as directed by the court and Police.

Natural justice is the process of many factors. As Area Commander Superintendent John Hopgood instructed over a 4 year period "**Just follow the Police checklist.**" He would say quote "**What is your point today?**" **Why the need to gain your clarity?**

As a consequence the Lord Mayor backed up with his TV 'Can Do' policy. Hence the need to work with the Brisbane City Council Internal Investigation Department who directed "**Set out this case so that the Queensland Police Force get the credit for a job well done.**" To ensure we work more closely as a team as Chief of Staff Superintendent Peter Martin correctly identified with his intelligent investigation.

Last week in following the Lord Mayor's direction my son attended a law seminar at the Marriott Hotel. **The Honourable Mr. Justice J.D.M. Muir gave a presentation on preparing for trial.** The same Judge confessed quote "**I have no understanding or clarity.**" **Why then did he bankrupt Badja Pty Ltd?** When will he make a correction due to the passage of time that our ex-DPP Barrister Davida Ellen Williams is now a confessed forger, fraudster and prisoner? Davida is responsible for the loss of millions of dollars due **to the confessed mishandling of our case by abandonment.**

Paul McQuade Barrister Queensland Bar lectured on the successful conduct of insolvency liquidation. The same Barrister who directed my son quote "**Do not expect to get justice in the Supreme Court. Always look to mediate.**" Hence the details of the multiple vexatious acts, the violence and intimidation confessed by the Head Contractor/'bagman' in his restraining order in the Dispute Solution Centre File No3117 Brisbane dated 27/02/2001. Then came the CIB, Police Crime Reports and the in-home invasions and nun chucker attack. Hence based on Barrister McQuade's direction Supreme Court Judge Mackenzie ruled "**To mediate a solution.**" To provide the money trail where the Head Contractor had gained the contract price of \$358,000 plus \$255,000 more, with up to 300% of extras. Money given away by the scapegoat Risk Management Policy of Grahame Ledwidge who refused our direction to study the solution, a) **JF & Pike's independent valuation.** b) **The Head Contractor's \$200,000 or 2 blocks of land extortion demand.** c) **Finally the in-home invasion and nun chucker attack for a \$47,962 ignored extortion demand, organised by the 'bagman'.** d) **Exposed by the CIB's fabricated stealing charges, proven unlawful by criminal code S391. (Abandoned property)** e) **Covered up by the prisoner Williams Attorney General's scam not to sue the Police for wrongful arrest, providing we signed a release, not to charge the Police.** f) The

Brisbane Magistrates Courts Registrars backup procedure. g) **The \$10,000 insurance scam where we decided enough was enough.** h) **My son also worked in the Brisbane City Council Inspection Section. He was conversant with SAA Law.** i) **He has previously won in court with the law of probability using the expertise of Tim Allen our accountant, an expert in the money trail to win our case.** j) **Hence this time we paid our accountant \$10,000 to provide a written damages confession. To prove liability similar to the bank payment of \$25,000.** k) **Plus undervaluing the sale price by \$250,000 by agreement with bank Relationship Manager James Pitman.** l) **We followed the Magistrates Court Registrar's direction to find a technical solution.** m) **This offsets the Supreme and District Court Registrar Ian Mitchell's consistent action in directing court, staff and any associated public servants to throw our Police Crime Reports in the bin, which we find both fraudulent and offensive.** n) **Hence Magistrate Austin was tricked over the \$10,000 insurance scam.** o) **This led to Judge Muir's confessed confusion to liquidate Badja Pty Ltd.** p) **The Attorney General Rod Welford has now confessed his error, due to the prisoner Davida Ellen Williams's previous friendship.** q) **Davida conspired against us, causing us to spend over \$500,000 in total for legal costs.** r) **Why would Davida in using 5 names that we know of, use her networking ability throughout the DPP, court and Police Operations Branch?** s) **Was it to deceive the various Judges who knew and trusted her as a Court Officer?** t) **Was it through court networking Davida was able to run a conspiracy to cause the loss of millions of dollars to mums and dads retirement funds, first home buyers and Badja Pty Ltd as the developer?**

The principle we have used after being told of "**The (criminal) ruse to run our subdivision at a loss to claim ownership by non completion**" was to use the due process of the law. With Police control, correction, risk management and **ultimately to move forward with Police rescue.** As we have been told over and over "**You may have got your Barrister into prison but you have not got your money back, so why waste your time?**" We followed the Legal Ombudsman's advice, "**To forget about the money for the moment and concentrate on the law (natural justice).**"

Following the process of law, we established our primary goal. To gain Commonwealth Bank payment of \$25,000 to admit liability, gain confessions of guilt and to prove the bank, the 'bagman' and the ex-Barrister are guilty. The solution is as directed by the Brisbane City Council Internal Investigation Department, "**Set out this case so the Queensland Police get the credit for a job well done.**" To build Police confidence, not failure. **The Asst Com. Pat Doonan has confessed. To mean, he has allowed neglect**

and incompetency to permit organised crime to destroy our lives, on the basis that he over ruled the Chief of Staff and the Area Commander as the senior Police Officer in charge. (We have isolated the problem) It's obvious he has gone directly against the advice of the Premier and Commissioner, backed up by senior Police administration. Hence the 4 Supreme Court Judges in summing up, **to mediate, disclose no clarity warrants the 5 year prison term that was threatened.**

Do you see how Chris Watts Commonwealth Bank mediation expert identified the bank fraud and was only too happy to give the mess back to Grahame Ledwidge, who initiated the fraud? Who will pay the price by law? Working in the world of reality, what is the next step? Using the concept of mathematics and the law of probability our principle is to stay with **the Police checklist, to control and correct with Risk Management, the rescue of the mums and dads retirement funds, etc.** How can this be achieved? By extending the warning of Supreme Court Judge Byrne by **the law of association. If you are involved in this conspiracy you can be charged with fraud and gain up to a 5 years prison sentence.** 'The ruse' is now on a website for the Brisbane City Council administration and Internal Investigation Department. Also available in the 'Public Notice' section of the Courier Mail in reference Supreme Court disclosure solution www.all-fraud.net. The ruse was to run our 22 block subdivision, to claim ownership by non completion. A \$255,000 'slush fund' was created to fund the violence, thuggery and court costs, to liquidate in the Supreme Court.

Hence the expertise of the Asian approach of 'simulation' as a University Degree, to gain entrapment and also use the expertise of the CIB, law, accountancy, Church 1% 'Sisters of Mercy' shareholder Risk Management, engineering and SAA law. To do exactly as confirmed by John Koek Baseline Civil Engineers, **"To complete our subdivision, pay our subcontractors and then lay fraud charges."** The problem being organised crime as Rob Wilson confirmed in 422/2000-2 Magistrates Court Holland Park quote **"If I go down, lots of people will go down with me."** Hence the obvious conspiracy, the 4 year delay, the ex-DPP Barrister networking and plea bargaining to plead guilty to \$1.3 million bank fraud only. **On the initial understanding that there would be no gaol term, only a suspended sentence.**

If it was not for these Police Crime Reports where it's reported up to \$20 billion a year goes missing in fraud, Australia's No1 crime. In the knowledge now in the community's handling of fraud in a similar fashion to say, mental health. Anyone who trusts their Barrister, Solicitor, bank or accountant as far as the community is concerned quote **"Must be a fool and deserves all they get."** Hence we study legal advice given in reference to the Lexis Nexis

conference as part of the division of Reedelsevier, a world leading provider of information, direction and solutions, to provide accuracy, clarity and dependability. (Completing the circle) Hence having lost millions of dollars to confessed fraud, our strategy remains constant. Based on the law of association, conspiracy-networking is identified as fraud. In addition the law of accession, as networking was used to cover-up the in-home invasion and nun chucker attack by the CIB Detective Trevor Kidd by laying **fabricated charges for stealing.** Covered up by the fraudulent actions of the fraud squad Detective Sergeant Brett Heath **in disobeying Police ethical standards and protocol in not tape recording his interview. (Proving fraud) Covered up by the prisoner's Attorney General's release scam.** As exposed by Area Commander John Hopgood - Chief of Staff Peter Martin backed by Police Commissioner Bob Atkinson. **We are still waiting for the Police Minister Judy Spence to study our Police Crime Reports. To explain why there was no secretary on hand as standard Police procedure, reference this major fraud case, on the 15th May 2005, to provide a press release to expose this most serious multiple fraud.** To backup and support Premier Peter Beattie and his team to follow up on the 'Smart State' and Lord Mayor's 'Can Do' policy. To zero in on the Billion Dollar fraud in the building and construction industry. Due to the fact that the Brisbane City Council do not have a Police Force to lay charges in the building and construction industry. Hence by the due process of law as experts in the field being conversant with SAA law as a team of experts in following standard Police procedure, it's a matter of determining the next step, **a)** to concentrate on the due process of law and create the **law of abandonment**, to require the Police to make a legal correction, or **b)** to process this case as a conspiracy by the Commonwealth Bank, the contractor / 'bagman', the Police Operations Branch **led by our Barrister.**

Hence the importance by law to call in all the experts. For example Mrs Drummond, the wife of the prosecutor who succeeded in putting the Police Commissioner Terry Lewis in prison for 14 years. We need both her and your family's support as a networking system to fight organised crime on a political basis. **We take help wherever we can find it. (Time for the Crime Stoppers to act for law reform) Please act!**

It's obvious the Commonwealth Banks policy is to back up the perjury of Grahame Ledwidge and the 'bagman' Robert Wilson and the vexatious acts used by his 4th Solicitor James Conomos in the ruse to liquidate our 22 block subdivision. It's also obvious instead of paying our accountant Tim Allen \$10,000 we could have paid that same \$10,000 to add to Robert Wilson's fabricated claims. **Hence no bankruptcy or entrapment to prove our case. We could have simply**

sacked him. In studying criminology and the Police checklist to win in court, it is important to have a '**Dead Corporate Body**'. This is standard criminal procedure to **work backwards.** Hence the importance to crystallise the loss and examine the details of the \$10,000 proof of our accountant's **damages confession** in ripping up his contract to lose money, up to \$115,000 gross plus costs.

This exposes the CIB cover-up. Why did the Asst. Com. rule no further Police action? Does he understand **all-fraud to abandon, litigate and liquidate = fraud?** Could you do a better job to explain the details? Understood by the Brisbane City Council Internal Investigation Department. We must use the strength of the Commonwealth Bank, Chris Watts as mediation expert and his direction **"We must protect our mothers at all cost."** To create a winning team to remove the scapegoat Risk Management policy known by law as '**self greed and self gain.**' Hence to be unconscionable by law, **we must gain your clarity**, thus prove '**fraud by abandonment.**' Hence sooner or later as a team we will create '**the law of abandonment**' to find the legal solution where we were threatened **"If this was Melbourne we would blow you away in the street."** On an Australia wide basis Melbourne and Sydney with a much larger population have greater organised crime. So far Western Australia is the leader, as best explained by ABC television in crime correction. Hence '**4 Corners**' promotion of the book '**Broken Lives**' and the need to support honest hard working Police with community support on a technical basis to expose the fraud where Billions of Dollars go missing in the building and construction industry. Hence the Police Commissioner's meeting with the Brisbane City Council, to find the solution. Unfortunately with self regulation as the Brisbane City Council Internal Investigation Department explained, they have no Police ethical standards or protocol (no Police Force to lay fraud charges). They are forced to accept the absolute stupidity of a Queensland Police Inspector Ray Loader stating **"The demand for \$200,000 or 2 blocks of land is not an extortion demand, it's a commercial decision. The chances of you meeting with the Asst. Com. (Pat Doonan) will not happen."** The **law of abandonment** is the technical mechanism to help law reform. Hence

MAKE IT RIGHT MAKE IT HAPPEN
