

Why Australian community cabinet CRIME REDUCTION PROGRAM ?

Police Crime Report No 365-11/08

DEFENSE DEPARTMENT / LAW REFORM

Why hold our position until relieved?

Army Colonel / QLS Judge Pat Shanahan's

PRECEDENCE

It took 12 years and 4 suicide cases to acknowledge bastardry, thuggery and now

VIOLENCE

Trapped in our own home

as part of a subdivision construction site racketeering scam with death threats and a 30ton excavator as a weapon, six car loads of Police arrived together.

The Police Sergeant in charge stood with perspiration running down his face. As he was told by the Head Contractor / racketeer **"This is my construction site, you have no authority here."** The Sergeant's advice; **to install security guards with a guard dog 24 hours a day. We did as ordered!**

The Police then moved the Head Contractor onto the footpath while we waited over a month for the Brisbane City Council **eviction order.**

The Qld Police administration now direct

FRAUD CHARGES

where the Commonwealth Bank are confessed

CRIMINALS

by contempt of court

BY ABANDONMENT OF BANKS

**ENGINEERS J F & PIKE PRE-VALUATION
EXPOSING**

RACKETEERING.

Thanks to the Community Cabinet / Premier's team assistance.

1. The Queensland Police Union via Assistant Inspector Mike Ede Police Prosecution Department explained the Police Union's recommendation. **As the Police were coming from all over Brisbane, Belmont needs a local Police station to provide efficiency and control. The need is to support the Police crime prevention program. We suffered from an almost daily extortion routine** with the subdivision almost completed in the first three months in line with the ruse to use our money to build the subdivision to an on-maintenance stage then for the next 13 months the new Head Contractor / **'bagman'** Robert Wilson stood over the subcontractors where the CIB, attention Senior Constable Tuddenham directed with four witnesses present assault charges could have been laid against Rob Wilson. Wilson's routine was to bash on our doors trying to extort money and park across our driveway, refer photographic evidence as proof, to prevent us going to work.
2. Finally with Police and CIB coming from Cleveland, Capalaba, Mt Gravatt, Camp Hill, Stones Corner, Dutton Park, Wynnum and Police Headquarters, etc. smart Senior Constable Max Williams from Wynnum Police showed his initiative, fed up with the criminal routine and waste of Police time and money. **He sat down with the Brisbane City Council Site Inspection Team onsite to gain understanding and clarity.** The same understanding and clarity Supreme Court Judge John Muir confessed he required to understand why we self liquidated our construction company to support the BCC / Police EPA Section 32 initiative as promised by the Brisbane Lord Mayor Campbell Newman in his press report. Altogether we came up with the Premier's solution to hand over control of Section 32 of the EP Act to the Brisbane City Council. Refer Police Commissioner Bob Atkinson and Police Administration backup in Police Crime Report 261. Also with the banks engineers' pre-valuation solution as guaranteed success having worked in the Brisbane City Council Inspection Section the importance to push ahead with law reform in the Integrated Planning Act to stamp out fraud / racketeering is clear to us.
3. The need to understand smart Barrister Paul McQuade's opinion of the 3 year farce / delay of case 422/2000-2 Holland Park Magistrate Court and the smart Magistrate Court Registrar's correction.
4. **The four year delay due to the car bodies and the dam wall on the fence alignment which is illegal and finally the Brisbane City Council acknowledgement of this engineering correction to redirect Summitt Street and the drain*** to the base of the dam wall.** Standard engineering procedure requires that the car bodies illegally covered up by the previous owner should have been removed as standard EPA procedure.
5. To assist the Police Minister Judy Spence direction quote **"To finish on budget or sometimes under budget"** and incorporate the holistic law approach as directed by the smart Barrister in the Legal Services Commission Scott Mclean. Having been invited by the Brisbane City Council to make better use of council properties that were seen as white elephants and

unprofitable, having built and converted properties into sport and recreation centres we recommend **to expand the Police Administration office at Chandler to an all purpose Police station.** As for four years we took refuge, first under the protection of Area Commander Superintendent Steve Pettinger then Superintendent John Hopgood, Inspector Les Hopkins and Sergeant Janelle Harm.

6. The Police Commissioner Bob Atkinson directing then Chief of Staff Superintendent Peter Martin to have the Fraud Squad Senior Detective Sergeant Darren Soppa put Detective Brett Heath in control of this case.
7. The need for Freedom of Information (FOI) Heath was only interested in one answer to his question **"Do you have a copy of the Commonwealth Bank loan agreement?"** Once he confirmed that all copies had been destroyed he made the statement **"Get your (RICO) act together or you will be out the door so fast your bum will not touch the ground."** What you have to be aware of is this, the then CIB Detective Sergeant Trevor Kidd was working in the adjacent office, being in charge of the in-home invasion and nun-chucker attack, **at no time had Kidd asked for or demonstrated any interest in going after the criminals. Why his attempt to frame me for theft charges when Wilson has never paid for the hire of our tip truck and excavator at the going rate of \$55 per hour.**
8. **despite 364 Police Crime Reports, our MOB Barrister** as confirmed by Superintendent John Hopgood is a straight out criminal with the best qualifications as demonstrated in tricking 14 Judges and Magistrates. The easiest scam of all was in Arbitration in Engineering House, where using the disguise of a ex-DPP Public Prosecutor under the protection of the Justice Minister Rod Welford, illegally working for the Commonwealth Bank, to pay back the money missing from her 6 bank \$1.3million investment scam, Davida openly confessed to me, the Arbitrator would follow her directions. As long as he was paid \$3,000 a day for the rental of his court facilities. Let me put it another way, the Crown / QLS Judge Pat Shanahan ruled **"This is the best case for law reform out of 14 cases under investigation."** **(If you will not listen to me just follow orders.)** We believe we can list out 20 crimes, so working on a DPP plea bargaining criteria as the Police and DPP have confirmed quote **"No-one wants to go to prison,"** where we have lost \$millions of \$dollars. Let's try and compromise and do what is best for the community at large. Bearing in mind that we were threatened with theft, child assault and child molestation charges where the ex-Assistant Commission of Police Pat Doonan and ex-Justice Minister Rod Welford have both given a formal apology for **'obstruction of justice'** and **'abuse of public office'**. The Police Commissioner ruling on an obvious political point of view, said in general he does not wish to press further charges. Generally understood as the criteria separating third world standards where kickbacks and bribes are considered normal as opposed to a developed country where Chief Justice Paul deJersey should be able to rule without being forced to live with depression and despair and gag his

three Judge panel to prevent them asking embarrassing questions that would have led to further disclosure to the many other crimes our MOB Barrister Davida Williams has committed. For example, as it was reported by a senior DPP Queens Counsellor, Davida forged a Solicitors signature after pleading guilty to this bank conspiracy and should have received a seven year gaol term, but apparently being previously married to a Queensland Police Inspector and even though as a convicted felon, Davida is still held with high regard by senior Judges in the legal profession / **a big mistake!**

9. Let's turn to Lord Mayor Campbell Newman's promised press release. Campbell Newman has an obligation to wear two hats. As an ex-Army Captain he must follow orders and keep his promises and expose corruption. We can make it simple to keep his pre-election promise to safeguard the Brisbane community with his **'Picnic in the Park'** promise under Police supervision. Instead he's followed BCC legal counsel advice, attention Geoff Evans, not to be accountable and not to admit liability to the EPA car body dam site or initiate the EPA Section 32 to give clarity to our \$10,000 model insurance scam. In brief, to integrate town planning and the criminal code promoted by all as an holistic or a team solution.
10. The Lord Mayor can be forgiven like the Police Commissioner for the enormous responsibilities placed on them as individuals. The need to stand back and reflect, to take advantage of volunteers and **'whistleblowers'** as primary witnesses to bridge the gap. As the smart BCC / IID **'whistleblowers'** put it, **for us to set out this case so the Queensland Police get the credit.**
11. This case must be settled under the banner of the Police Ethics Standard Command with the support of now Assistant Commissioner Peter Martin whose previous official explanation was quote **"According to Police availability and time we did the best we could."** Commonly referred to as a **'copout'**. The whole world is aware that racketeering as endorsed by kickbacks and bribes is the world's biggest crime. Working in international trade, theft on the waterfront has been reduced by introducing container shipping, to prevent the waterside workers in going through the ship's manifest isolating the products of interest and arranging these products to be redirected to organised crime. The Defence Department as explained in the media have finally agreed that if a soldier kills his mate with live ammunition and being forced by his platoon to a stage of taking his own life as the only alternative, needing 4 similar deaths to confirm the Defence Departments legal concern that consideration must be given to victims, family and friends.
12. In our case, the original racketeer / Head Contractor's name was Peter Kreich, when he came to me, he made no mention that he had a criminal record. **He made promises that he would employ qualified subcontractors, and in general he did so until he became involved in the**

drainage section of the contract. Instead of employing a qualified drainer as promised, his inability to do the necessary drainage was exposed and consequently he was sacked. We were approached by Rob Wilson on the understanding that by employing Col Roseland / plumber drainer of Strathpine, the work could be completed under contract. **Only to be told of his ruse / Police acknowledged fraud by five legal companies that Wilson planned to run the subdivision at a loss to gain liquidation to sell off the subdivision to pay the kickbacks and bribes.** Then to be told by Inspector Ray Loader that if I had paid the \$200,000 or given 2 blocks of land the Head Contractor would have stopped trying to beat me up. This is why Police admin agree fraud charges must be laid due to the ex-Justice Minister Rod Welford's apology in being deceived like me, in trusting the MOB Barrister Davida Williams, **the Barrister from hell.** So we have the Premier's solution, the Lord Mayor's promise and Supreme Court Judge John Byrne's warning that the penalty for this crime is **a five year gaol term.** (To be expected.) So if no-one wants to make the tuff political decision for the smart Police Minister's direction **"To finish on budget"** and if the media are too frightened and scared to follow our lead and write a balanced story, why not just follow orders and follow the Defence Department's lead to help stamp out bastardry, thuggery and nun-chucker attacks? I can only tell you the truth, I watched after my wife Jan Bright contracted breast cancer at 42 years of age and Jan stated **"You care more about work than you do about me"** and divorced me. I watched after fleeing Brisbane as the thuggery and violence was too much to bear. As my next partner Noelene Lambert a nurse attempted multiple suicide, but not wanting to be discovered Noelene drove to an industrial estate in Caloundra. Not being experienced Noelene used a vacuum cleaner hose to try and kill herself. As Noelene explained, as the Vacuum cleaner hose squashed in the rear window and despite several attempts there was not enough carbon monoxide to kill her. In the end, with a hot exhaust pipe the vacuum cleaner hose burnt off and she decided to book herself into the Caloundra Hospital.

13. My point being, Sergeant John Wiseman at Caloundra Police Station made a habit for years of throwing us out of the Caloundra Police Station despite Police Commissioner Bob Atkinson's direction **"Report this matter to your local Police Station."** Inspector John Earea's response was **"This is my Police Station I make the decisions here."** We have further evidence but John retired on stress leave and in producing these Police Crime Reports finally we met with our new Assistant Commissioner Peter Martin who went on TV Channel 2 Seven Thirty Report to endorse the Police Ethics Standard Command support for **'whistleblowers'**. So you may see our team on the streets of Brisbane and beyond with our trolleys and our whistles handing out Police Crime Reports under the direction of **'Rescue Management'**. In the hope, one day Police Risk Management will be replaced with Police Rescue Management. As really it's that simple, if you set out to help people, how simple it is but if you risk a 5 year gaol term as a result of stealing and destroying our 22 block subdivision then as the son of a WO1 in

the RAAF in defence of my 89 year old mother along with a group of friends, family and land buyers who trusted me to sell them blocks of land and were destroyed by the obvious stupidity and insanity of the Risk Manager for the Commonwealth Bank Grahame Ledwidge, who is in contempt of court for fraudulently hiding a bank loan agreement to sell land **without title and deposit.** All I can say is, I am no different to Chief Justice Paul deJersey. (My son and daughter would like to see change.) I am forced to live with **denial and depression** that our Queensland legal system does not have enough **intelligence** to at least follow the direction of smart Queensland Police. No better example than Area Commander Superintendent John Hopgood who directed fraud charges should be laid. We can only live in hope that the Commonwealth Bank who worked to the motto **'MAKE IT HAPPEN'** have perhaps taken some note of our Police Crime Reports as Loans Officer / Relationship Manager, **'bank whistleblower'** James Pitman said **"You must search the bank to find someone to listen to your story so that justice is done."** After being sacked at the CBA he stated **"If I do speak out, I will lose my new job at Westpac."**

14. As ex-BCC valuer and now private valuer, another failed land buyer victim, Terry Buckley said **"You do not listen."** Just like Tim Allen our accountant who we paid \$10,000 for a **'damages confession'**. How simple this would be if you learnt to listen, to live in hope as the Commonwealth Bank advertised over the Beijing Olympics **'TO MAKE IT BETTER'**. All I know is, I don't sleep at night, but I will not give up.
15. The scam Tim Allen pulled on my mother, his motive **to have a hold on me, was a sign of desperation** to make her a 1% shareholder of Badja Pty Ltd, our construction company, **against her wishes.***** Rob Wilson then threatened her knowing she had taken out a loan agreement to support her only son who offered her the opportunity to buy land at \$75,000 a block, worth \$200,000 on completion as a reward. The scam being that if she did not pay Rob Wilson's extortion demand, in providing the loan on her home they would foreclose on her home. **Hoping my mother would not realise shareholders do not pay racketeering extortion.** What seems unbelievable **BECAUSE YOU DO NOT CARE TO STUDY THIS CASE, THE RACKETEERS BELIEVED THEY COULD STEAL EVERYTHING AS PROVED BY YOUR LEGAL ABANDONMENT TO THEIR \$255,000 PAYMENT WITH EXTRAS OF UP TO 300% OVER COST. AS CROWN PROOF ABANDONMENT IS FRAUD.**
