Dear Sir.
Why the law of abandonment? Be true to yourself, **self regulation is best.** How many times have you been tricked, cheated or deceived? How many times have Police said, due to their training **"That's life just move on?"** We helped create Healthequip, Fit for Life. Living Health (Canberra) Australian Fitness Supplies, we believe, we helped save 100,000 lives by doing so much more, as sponsors and volunteers, by counselling, to relieve pain and to help win gold, with the spirit of a winner **never to give up.** Why complete the set of the **law of abandonment, accession and association?** Due to the courts biggest fraud to rule on **"It's not relevant."** As evidence and proof, the natural justice of Queensland Supreme Court Judge's Mackenzie, White and Muir ruling **"Mediate", "Disclose", "No clarity"** finally acknowledged by Supreme Court Judge Byrne with a warning of a **five year prison term.** Due to the confessions of guilt from the Commonwealth Bank, (**scapegoat**) Risk Management Grahame Ledwidge, the **'bagman'** Robert James Wilson and the ex-DPP Barrister/prisoner-forger-**fraudster** Davida Ellen Williams. Please study the abandonment of our 276 Police Crime Reports as seen on www.all-fraud.net Special note: - using a $10,000 insurance scam exposed by accountant **Tim Allen's $10,000 payment for damages confession** to explain the money trail and Church 1% Risk Management program. Focus on SAA rule 27.2 self regulation. We have done all the hard work, all that's needed as the Brisbane City Council Internal Investigation Department directed **"To set out this case so the Queensland Police Force get the credit for a job well done."** In brief the Queensland Attorney General Rod Welford was tricked by a friend and workmate, **the prisoner** Davida Ellen Williams who has confessed to the scam of bank fraud only. Hence hiding the millions of dollars of fraud and the mechanism used to cheat mums and dads investment funds and first home buyers and developers with vexatious acts and frudulent bankruptcy.

Regards

John Bright
