## YOU'RE INVITED to view **THE BARRISTER FROM HELL**

David Ellen Williams ex-Public Prosecutor, forger, fraudster/prisoner set down for hearing Brisbane Supreme Court 24/10/2005. Davida plea bargained the fraudulent illusion to cover up the Commonwealth Bank fraud by confirmed abandonment in court. As the next step by law from crime, control, correction called entrapment thus natural justice. To mean under Police control as a group of experts by law using criminology, psychology and mathematics, we were directed by the Brisbane City Council to set out this case to win so the Queensland Police Commissioner Bob Atkinson, Chief of Staff Superintendent Peter Martin, Assistant Inspector Mike Ede Prosecution Section get the credit. Our thanks to the Premier Peter Beattie's direction as we acted as sponsors and volunteers to the Police Youth Club, Police Union, High Schools, etc. We gave our money and time, to help build quality of life via Healthequip, Fit for Life, Living Health, Australian Fitness Supplies, etc. Our special thanks to Supreme Court Judge Mackenzie, White, her husband Dr. Michael White from UQ Law, Supreme Court Judge Muir and Byrne who ruled "**Mediate, disclose, no clarity.**" Creating the warning of a 5 year gaol term. We are telling the truth, nothing but the truth, thus by law we create the formula or equation for the '**law of abandonment**'. Now in the hands of Chief Justice Paul deJersey, and Judges McPherson and Chesterman, as the answer and solution required by the Premier. To kick start the past confessed mistakes in the Attorney General's Department. For the Police Minister's clarification as directed via the Attorney General's office quote "**All you had to do was tell us you are looking to create a new law.**" Based on studying the law, in first calling in all the experts to give clarity, to the Judges involved. It is impossible to win if you have the '**Barrister from Hell**' who as an ex-Public Prosecutor is an expert in deception. Davida confessed quote "**You would be surprised what goes on behind closed doors, abandonment.**" Rebuked by District Court Judge Brabazon, who in ruling on Davida's behaviour in court, only stated "**That's not the way to do it.**" (Not knowing she was a criminal at the time.) Davida is judged by the law of association, with the Attorney General Rod Welford as evidence and proof the courts direction was governed by the statement quote "**What does the DPP have in mind for the prisoner?**" Meaning Rod Welford's prior confessed friendship. (Also not knowing Davida was a criminal.) **After a 2 year delay in sentencing, Davida has still not been charged with her fraudulent behaviour in abandoning our case.** Creating the loss of Millions of Dollars to mums and dads retirement funds, first home buyers and Badja Pty Ltd the developer of the 22 block subdivision. The subdivision was allowed to run out of control by planned abandonment, litigation and liquidation, **thus proof of fraud.** Hence suggested 5 year gaol term.
