

13-01-2009

Dear _____ ,

In line with our all-fraud (*Abandon, Litigate, Liquidate*) presentation / web site / test case model www.all-fraud.net and thanks to the teamwork of the Federal, State Members of Parliament and local councillors as a 2009 New Year's resolution, our local Federal Member Alex Somlyay, the Member for Fairfax, with the help of his staff, on learning our Barrister Davida Williams was a self confessed investment scammer, intent on stealing our HEHS super fund by a subdivision liquidation scam, to become owners as creditors to sell off our subdivision to pay the kickbacks and bribes. This was well known-for many years by the ATO and the general community as a **'brown paper bag'** act. It needs proof, which we now have as a town planning, fraud, conspiracy and Commonwealth Bank funded cartel case. As a previous local Government counsellor, we ask that you give Alex a clean green EPA / IPA engineering bipartisan support to the Queensland Police, who directed to lay fraud charges, but did not seek the evidence. As the ex-Justice Minister Rod Welford confessed and apologised, he was tricked by Davida, reported as an ex-University law friend. We need the Justice Department to gain the truth of his case and your permission to direct the ACCC to write up our case, **the sub-prime mortgage loan scam** and **'Ponzi' scams** in a new bank section of their **'Little Black Book of Scams'**, as used by the Fair Trading Department and for the Trade Practices Act, etc. Like our engineering **'Yellow Pages'** example, for victims and their legal counsel to learn how with law reform they can defend themselves, and we can live in peace with good health, free from depression and despair **TO MAKE A CORRECTION**, to ensure Judges and Magistrates rule on their intelligence free from multiple DPP confessed corruption.

Yours Faithfully

For all victims of crime

John Bright
