

THE NEAR PERFECT ATO CRIME

called a QDPP plea-bargain to gain automatic Police protection to trick, cheat and deceive 14 Judges (7 S. Court) under the leadership of Chief Justice Paul deJersey.

The CBA **behind closed doors** blackmailed our ex-QDPP MOB Barrister Davida Williams who had forged our HEHS manager Gary Armstrong's signature to cheat the NAB for \$198,000 as part of her 6 bank \$1.3million scams. Therefore Davida was forced to confess to me (i) how she became a forger and fraudster, only to be tricked and ordered by Grahame Ledwidge (*credit manager for the CBA*) to trick the Justice Minister, then Rod Welford into giving Davida a pardon. (ii) The condition was, she paid back all the stolen money; (iii) then hid the illegal CBA loan that allowed the \$4.4million '**Site Solutions**' scam. This caused the ATO estimated loss for \$460,311.30 for our HEHS superfund tax return. Thanks to the Premier's Community Cabinet direction, to find the solution to this **fraudulent QDPP pardon**, Welford apologised and after 2yrs **had the pardon revoked**. This allowed the Qld Police admin to instruct me to set out this case **to lay criminal charges**. Welford then resigned as Justice Minister. Under Supreme Court (i) MacKenzie's mediation order, (ii) White's failed CBA disclosure order, (iii) Byrne's 5yr gaol term warning to use this 3 step procedure to prove guilt:-

S

STEP 1/ The Police Minister Judy Spence and Police Commissioner Bob Atkinson had the Police Risk Management Assistant Commissioner Pat Doonan apologise and resign for trying to put me into prison 3 times **to create a diversion**, (*as a criminal / child molester*) I could not be trusted as a previous Crown prison reform consultant, primary witness and official agent / director for our HEHS superfund victims to set out this case as ordered **to lay criminal charges**.

S

STEP 2/ Under the QLS law reform direction as we proved we are completely innocent of all charges, we were given the Crown task **to prove this CBA led cartel guilt**.

S

STEP 3/ The need to explain how the now Police Assistant Commissioner Peter Martin (PESC) was tricked, cheated and deceived into illegally closing this Crown / ATO case.

JUSTICE EARN

WHY RACKETERING CHARGES MUST BE LAID!

1. A/ **Teamwork is the obvious solution**:- You need to call in as many criminology, Police psychology, civil engineering, EPA/ town planning experts, insurance assessors and brokers, tax agents and accountants as you require, but as the key pivotal point by law the Prime Minister, State Premier's, Justice and Police Ministers, in particular Police Commissioner Bob Atkinson with the aid of his 4 key Police Assistant Commissioner's on this case with the support of Police admin, union and media will confirm as the QLS put it "**As the obvious.**"
B/ 99% of QDPP and Police staff are honest, but you cannot and will never completely stamp out organised crime, there will always be at least 1% of staff who will accept kickbacks and bribes (*brown paper bag style dealings*) if offered, if they think they are protected by the Crown. As the Assistant Commissioner Ian Stewart asked of me "**Isn't kickbacks and bribes the way business is done?**" They therefore cross the Police Risk Management line and become a '**crime cartel**'.

We were told by at least 6 Solicitors where the Qld Bar Association '**whistleblower**' proved guilt by stating "**Not one Queensland Barrister will defend your case, etc.**" Due to the fact that most public servants cannot live with the ongoing fear of more bkie style in-home invasions and nun-chucker attacks. Where the Police Risk Management via Insp. Ray Loader said quote "**If you had paid the \$200,000 or given 2 blocks of land the Head Contractor would have stopped trying to beat you up, etc.**" With his threat "**Better you had paid.**" (TBC)

C/ As the QLS law reform consultant Colonel/Judge Pat Shanahan put it "**This is the best case for law reform.**" To mean, to upgrade the law to make it easier to smash organised crime. To understand our area of expertise called simulation (*to copy a product and make it better*). Having started my business career in a testing lab where every aspect is tested to the full in line with the SAA rules and regulations we learnt to go further than the 3 step procedure. We can prove the CBA led crime cartel is guilty at least 20 ways. As Davida explained her reason for confessing her guilt as proof stating "**You suffer from information overload.**" Therefore the QLS directed "**You must prove abandonment is fraud.**" The Qld Police act as both agents for the Crown / ATO and you the general public who need superfund protection for your retirement at all costs. **I will not fail you.***** The ATO have quoted the law where it is my responsibility to ensure my tax returns are filed but I do believe that it is standard ATO procedure that the ATO must direct the CMC, LSC, ASIC, ACCC and APRA to follow the standard Crown law procedure to assist the accountants who live in fear of organised crime and have reported the CIB informed them on supplying his '**damages confession**' to in brief "**Keep your mouth shut,**" in a similar fashion where the ATO Supreme Court witness and Crown consultant Tony Coburn offered support only to be told by his boss, quote "**To keep out of it.**" As a result therefore after 10yrs of ATO abandonment there is a need to reform Crown law to the 3 step procedure, to create the law of **association, accession and abandonment**, again in line with the QLS law reform correction and the obvious inclusion of the **International RICO Act**.

2. A/ Under Supreme Court ordered mediation and the Brisbane / HP Magistrate Court Registrars request for this quote '**technical device**' to expose the bank's liability where for 40yrs of AAA+ service the bank scam started with one key mistake, to give me an illegal incomplete loan that opened the door to the '**Site Solutions**' scam. The bank's attitude changed immediately. I will explain Ledwidge's mistakes, confessions of guilt and obvious stupidity. (i) "**We never said we do not make mistakes, you should have known.**" Therefore we support the official CBA Loans and Relationship Manager James Pitman's Rescue Management plan. The model is to understand when faced with a bank mistake and to be told in brief, **if you want the loan do as the loan reads**. As a technical device if we could not fix the bank loan then the obvious solution was to bypass the bank mistake and give the profit of our superfund directly to the HEHS superfund beneficiaries which worked out on average at \$125,000 based on selling the land without title and deposit as directed at a '**fire sale**' price which was officially agreed to by James Pitman but totally stuffed up more than once by the obvious stupidity of Grahame Ledwidge. (ii) As Grahame Ledwidge put it as his excuse "**I work for the shareholders profit and the top end of town.**" The need therefore, to take the advice of the court Registrars and study the Vexatious Litigants, Fair Trading and CMC Acts where the QLS advised Ledwidge said to "**Rip up the contracts or I will close your bank accounts apart from a small housing loan.**" Where the QLS advised Ledwidge should have said "**Redraft the contracts, have the new contracts signed and then rip up the old contracts.**" (iii) The key CBA damage was done when Supreme Court Judge Margaret White requested disclosure to the bank payment of \$25,000 in admitting liability where Ledwidge wrote "**The bank does not give disclosure to bank business.**" The CBA via Davida was able to ensure our Rescue Management plan was abandoned. The civil engineer's report by John Koek was ignored by Ledwidge after Ledwidge acknowledged the problem lay with our previous project engineer Greg Henwood where the initial project was costed but where extras were being paid out at up to 300% over cost. Greg Henwood confessed guilt as part of the '**Site Solutions**' scam but again Davida was able to hide the insurance assessor and insurance broker detail to the EPA Section 32 liquidation model or \$10,000 test case model ignored by Supreme Court Judge John Muir in falsely liquidating our \$4.4million 22 block subdivision over a \$10,000 Police, BCC site inspector and EPA Section 32 test case.

This can be confirmed with the perjury in Case 422/2000-2 that led to the obvious concern of the smart Bne and HP Magistrate Court Registrars request for this **'technical device'**.

B/ Just like then Lord Mayor Campbell Newman immediately saw the solution came in a further Courier Mail press release **to provide detail as to how to lay further charges**, Newman was not prepared to override or bypass the BCC Solicitor Geoff Evans whose method in abandoning this case was identical to the ATO tax office, **to call security and have us thrown out of the building on a regular basis.*****

3. A/ It has now come, I believe to the close of this case. In summing up we have proved without doubt the 14 Judges and more have been tricked, cheated and deceived. This proves 14 cases of contempt of court and at the very least it proves **the CBA led cartel are low life filth and scum** who have done all within their power to have me charged for theft and child molestation to try and prevent the possibility that Channel 7 TV may present this case as part of their news segment. So you must answer this question; why do I keep telling the truth? If I was not telling the truth, then I put it to you as the CBA have had a team of private Detectives working for them to gain as much information as they can **to blacken my good name**. Then if we are not telling the truth why hasn't the CBA or their agents charged me with slander and defamation? Why do you continue to refuse to study the court transcripts, in particular Case 422/2000-2 Holland Park Magistrate Court **that proves perjury in line with the laundered money trail** and the involvement of the 4th Solicitor, trading as James Conomos as the only Solicitor prepared to run the **'Site Solutions'** scam. He threatened but failed to sue me as QLS proof **his abandonment is fraud** in line with the Commonwealth Bank. Refer bank Solicitors Clarke and Kann Supreme Court Affidavit 4461/2001 as further proof.

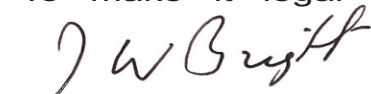

B/ What the CBA crime cartel has been able to achieve is called a stalemate, as the Police Commissioner Bob Atkinson put it to me **"Is it worth all the trouble? Etc."** **YES IT IS!** (i) This **Police Risk Management cartel** must immediately be renamed and identified as **a Police Rescue Management team** to initially explain the Vexatious Litigants Act that led Police Area Commander's like Supt. Steve Pettinger to delay this case for 4yrs as confirmed by the ASIC investigator Helen Armfield Brisbane office, on Pettinger's understanding, quote **"That this is a civil matter outside the control of the Queensland Police."** (ii) The fact that 14 Judges were tricked, cheated and deceived came about by the failure of arbitration in Engineering House Brisbane. The Arbitrator who specialised in civil engineering just took it for granted that as Davida had worked for the QDPP and the Crown that he would be guided by her legal seniority and expertise. As it turned out, Davida was a confessed forger, fraudster and now felon who was only given a 6mth gaol term as a political decision, to amend the fraudulent plea-bargaining scam. This was to ensure Davida kept her mouth shut and did not expose that she acted as a MOB Barrister and with her expertise most of the crimes she was involved in have been covered up. Our case is the best example. (iii) The new ASIC investigator, Perth office, asked the obvious question **"But who stole your money?"** The way this case has evolved is not your normal case. Until you realise this fact, until someone has trained you in the way of trickery and deceit, **you too are a victim just like Chief Justice Paul deJersey**. Again the solution is teamwork, the need for me to set aside this Police Minister requested \$million budget. The answer comes with the bank valuation by law and to understand our **'fire sale'** bypass to the superfund beneficiaries. Hence the necessity of a basic understanding of mathematics. **By law, stupidity is not a form of defence**. If you cannot understand the intelligence of the Area Commander of Police John Hopgood in giving me the CIB Det. Mark Hughes to set out this case, to gain the Premier's solution to use his Community Cabinet Ministers then you have failed in your duty to uphold the law. I agree with the smart Supreme Court Judge John Byrne's minimum penalty for this crime is

A 5YR GAOL TERM.

Again I repeat,

I WILL NOT LET SUPERFUND VICTIMS DOWN.

To make it legal

Signed John Bright
