

As a draft for your promised LNP 'Picnic in the Park' / Labor 'Community Cabinet' press release, please study this QPS / forensic 'work in progress' report for EPA Sect. 32.

## A FLOOD EXTORTION SCAM WARNING!

Ministers McArdle & Powell

**CORRECTION**

1. a/ Explain why the barriers and bales of hay were removed prior to a thunderstorm?

b/ Why did ignored court perjury change the course of our HEHS superfund?

c/ Why would the Head Contractor Rob Wilson use confirmed CIB violence on the Developer and subcontractors and the '**Site Solutions protection racket**' to sabotage our worksite to send our construction company Badja Pty Ltd bankrupt?

(i) **Identify the crime!**

(ii) Wilson's own Solicitors confessed they lived in fear of the QLS reform '**To first defend the law**', and not prop up Davida Williams, an ex-QDPP Barrister, known as a criminal. As proof, check NAB legal opinion and date of Davida's confessed forged \$198,000 cheque. Davida forged Gary Armstrong's signature; Gary was subsequently charged by the CIB and proven innocent. Obviously from that date, 6 banks became aware of Davida's \$1.3m bank scams. The CBA Credit Manager was able to blackmail Davida with the threat of a 3yr prison sentence, under the control of the Justice Minister Rod Welford's plea-bargain.\*\*\*

(iii) Wilson revealed his plan to his Solicitors who told our Solicitor Adam Sambrook (*Grants Lawyers*), that he would prevent completion of our subdivision by standover tactics on both the developer / Badja Pty Ltd and the subcontractors, and more. (TBC) His scam was to become fraudulent creditors of our 22 block subdivision.

(iv) Then, turn on the mains power and water supply, to gain final BCC approval **to gain the right to sell off the project for an estimated \$4.4m!**

(v) Then Wilson was forced to pay the kickbacks and bribes to his crime cartel.

(vi) This is known as natural or holistic justice, for Crown evidence, so that criminal charges can be laid. Our motive, **TO SMASH ORGANISED CRIME!**

(vii) First, study basic criminology to support honest Police and the ATO via the QPS C.C. Sect. 399. To mean, **Crown evidence cannot be destroyed, abandoned or covered up by perjury.** The QLS ruling via Army intelligence and law through Army Colonel / Judge Pat Shanahan requires the creation of the '**law of abandonment**', so that honest Police can complete their task and lay criminal charges, **despite Ministers and staff ignorance of civil engineering and arbitration procedures.**\*\*\*

2. Have Ministers McArdle, Powell and **their staff** explain why they did not act on EPA Sect. 32, as directed via Speaker Fiona Simpson for both the BCC Site Insp. Gary Kopp and QPS Wynnum Snr. Const. Max Williams, who provided the EPA paperwork and proof to lay criminal charges. This was backed up by the Police Union report via the QPS Prosecution Dept. Tank St. Bne., care of Act. Insp. Mike Ede. (*the best witness for the Police Prosecution Dept I know, who was backed up by an Asst. Comm. of Police 'whistleblower' who was involved in this case.*) These reports are valuable but were ignored by Dr. Ken Levy CEO for the CMC with the excuse "**Too many people were telling me what to do.**"
3. a/ Then under the direction of Justice Mackenzie and White's mediation and disclosure orders where Magistrate Ian Austin ignored Police Minister Spence's direction for me to volunteer a (\$1m) budget, we officially mediated with Supreme and District Court Registrars to no avail, but we were driven by the Magistrate Court Registrars from Bne., Holland Park, Caloundra and Nambour. They became aware of Davida's malpractice, to both delay cases, e.g. HP case 422/2000-2 for 3yrs and at the same time request adjournments where 14 Judges took part and

can best be described as a domino effect, where the Head Contractor's perjury was identified in court by his own Solicitor, because of **engineering ignorance by Mag. Austin**. (TBC)

b/ Davida's first step as Ian Miller for Engineering House confirmed, as both a Civil Engineer who also gained a law degree was first to confirm he followed Davida's direction as Snr. Legal Counsel. Miller confessed to me later he had no idea at the time Davida was a known criminal to 6 banks and was therefore **ineligible to act as our legal counsel**. Even worse, we will prove how Davida confessed how she was blackmailed by Ledwidge on behalf of the CBA, to try and cover up not one but three major CBA mistakes. Therefore, the court Registrars ruled the need to study the Vexatious Litigants, Fair Trading and CMC Acts, which we did as well as basic criminology.

4. a/ All would have gone well if our first 3 Barristers, white faced Barlow, Sweeney and McQuade had held their ground, but their final opinion was to rely on a Supreme Court **'mediation order'**. This order was ignored by both the Police Risk Management Dept. and gagged by Chief Justice Paul de Jersey. This was confirmed by Justice Mackenzie under witness and then later, as proof, Shanahan advised, to study both the money trail and the court transcripts to prove guilt. A panel of 3 Judges, de Jersey, Chesterman and McPherson gagged debate and did not speak out to gain full discovery and disclosure to all Davida's crimes.

b/ Davida, in brief, was able to trick, cheat and deceive the Engineering Arbitrator with ease, that led to the domino effect in total where 14 Judges were fooled by Davida. The 1<sup>st</sup> Barrister in the past 70yrs in Qld to go to prison, but not for the scam of working as a MOB Barrister for hire. Her scam to offer to work for \$20 an hour to ensure Davida could gain access to our file, to destroy the Fraud Squad's Brett Heath's key evidence as quoted **"If you do not have a copy of the CBA loan agreement, you do not have a case."** Fortunately, the loan agreement was the only key evidence removed from our file under Davida's protection.

c/ Please note, the ATO tax evasion team estimate their loss on this superfund scam alone at \$460,311. We agree; refer tax office Tony Coburn, that he did his best as a **'whistleblower'** but reported he was prevented by his boss from enforcing further prosecution and punishment. Please telephone Coburn on (07) 32135181 for further confirmation.

5. a/ Not only the Tax Office were powerless to collect their stolen benefits, our HEHS superfund victims did not receive one cent in payment of an estimated \$125,000 each.

b/ Therefore, we will prove how Ledwidge misled ASIC / CALDB, Bne., to hide the detail, but thanks to standard ASIC backup their Perth Branch listened to our story and asked the obvious question **"Who stole your money?"** Please follow the money trail to work out how our superfunds were either misappropriated or better understood as money laundered. We have to establish, not the total loss of \$4.4m as the crime cartel planned, but we were able to create a stalemate or standoff, where in brief, only our profit was stolen. This brings in the standard bank practice of valuations. JF & Pike Civil Engineers valuation, for the CBA were accountable by law and informed Ledwidge that, in brief, the then Project Engineer Greg Henwood, was employed by Wilson under his terms and conditions (*refer to 'Site Solutions protection racket'*) and therefore was approving extras at up to 300% over cost. These funds were to gain approx \$250,000 to spend on legal costs, to send us bankrupt, known in the industry as a self funded crime. This went directly against our contract that stated extras were to be paid at cost plus 5%. c/ In brief, all hell broke loose, as part of Dr. Hudson-Jessop's Psyche report to state **"Shit Happens"**.

(i) Davida failed to move against Henwood to expose our proof that he approved fraudulent invoices of 300% over cost.

(ii) Ledwidge advised me of JF & Pike's solution to sack Henwood and replace him with a more senior engineer, John Koek from Baseline Civil Engineers, who could not be bullied or intimidated by Wilson, (*to participate in our liquidation and share in the kickbacks and bribes*), knowing if he did, he would be deregistered as a Civil Engineer and could face a 5yr jail term. In brief, Koek provided a **'damages report'** which again Davida was able to hide from the courts, as proof, of further **'contempt of court'**.

(iii) Police Area Com. Pettinger's excuse; quote **"This is a civil matter outside the control of the Qld Police."** I put it to you; **when it comes to fraud nothing is outside the control of the Qld Police**. The definition of fraud is to trick, cheat and deceive.

Fortunately, it took the wisdom of Area Com. John Hopgood's team in learning that Davida had confessed guilt, to recommend a CIB investigation.

That was officially overruled by '**Police Risk Management**'. We approached the CMC as ordered by Insp. Les Hopkins, who completely failed to investigate this matter. (TBC)

(iv) D.C. Judge Charles Brabazon warned Davida, quote "**This is not the way to do it,**" and gave Davida the usual 6wks to 3 mths to get back to him and present our case, or obviously Davida would be in '**contempt of court**' and face a jail term for legal malpractice.

(v) Former Police Comm. Bob Atkinson agreed the QPS should take note of the QLS findings. Put simply, the importance by law of the primary witness and victim, to mean, **nobody knows our case better than we do**. Legal counsel has the skill and ability to run our case, but they are only part of a team and must be led by our direction. Providing the QPS confirm that we are of sound mind, which has been done five times, starting with the Redland Bay Psyche report, refer Insp. Janelle Harm. This is standard backup procedure as a form of '**crime prevention**'. Not only to prove that I am of sound mind but as a family of Army, Navy & RAAF volunteers; **no one is going to steal my Mother's home and continue to try and destroy our quality of life**.

(vi) As forensic expert Dr. Pathè has now confirmed, "**we have a court systems failure**". Hence our primary person of interest, my 94yr old Mother, who represents the weak, elderly and innocent victims of superfund fraud, who in mortgaging her home to protect her only son from racketeering and corruption, was offered a free gift, better understood as the '**shareholder mortgage loan scam**'. Explained by both our Accountant, Tim Allen, who organised the independent loan and through Rob Wilson, enforced by bkie thugs, (*the ACCC / LBB of scams pg16*), with a fraudulent invoice presented as a legitimate CBA approved invoice for \$47,692.97. Mum's understanding, being that if she ignored both Allen and Wilson's so called advice and not pay this fraudulent invoice, she would lose her home and be forced to live in a caravan park. Again refer "**Shit happens.**"

6. a/ As always Davida made sure this evidence was either hidden or destroyed, if not, she would go to prison, due to the term of her 3yr jail sentence which had been waived under the control of a plea-bargain, that had been arranged between the CBA, Justice Minister Rod Welford and Davida. Fortunately, Rod Welford apologised for being misled by the CBA, gave this case to Police Minister Judy Spence and resigned. This exposes the key pivotal points in this case, to answer how and why justice was denied, or even better, how can the faith of 3 Barristers in S.C. mediation and disclosure be ignored? Both Premier's direction was to find an answer to

(i) why de Jersey gagged Mackenzie's mediation order?

(ii) Why de Jersey gagged Justice White's disclosure order?

(iii) Why de Jersey gagged me in court and Justice Chesterman and McPherson, who by law, also failed our justice system, to gain full discovery and disclosure?

The reality was, Davida, like most criminals was suffering both mentally and physically. **Refer her medical report**. Therefore, to protect the crime cartel Davida was forced to undertake a 6mth jail term in the belief the details of this case would go away.

b/ The problem was, Ledwidge did not have the balls to admit to his mistakes. Once committed on the path of crime and corruption, this act is known as the '**law of accession**'. The principle is as guilty as the actor. Also known in the C.C. Sect. 200 & 205, as further '**abuse of public office**' and '**obstruction of justice**'. The QLS principle:- What we have to prove is, that many public servants believe you cannot be charged for doing nothing, that if you take that first step to defend the victim that somehow you will be blamed for this chain of events. So focus on Premier Newman's advice with former Peter Beattie's backup to use their Cabinet Ministers to focus on the facts and find the EPA Sect. 32 solution. Refer Fraud Squad's advice "**To get your (RICO) act together, etc.**"

7. If we act on the QPS alternative solution, that this is a civil matter, then a solution to the civil matter will solve a superfund ATO fraud. The solution is simple enough; to go back to Engineering House Bne., where previously we paid \$3,000 a day and after many months we were able to prove that Davida deceived the Arbitrator Ian Miller. Commonly understood as '**abuse of public office**' or '**obstruction of justice**'. As Dr. Pathè has continually asked "**What do we need to do to resolve this case?**"

Have Asst. Comm. Peter Martin, now in charge of the PESC, confirm he was fraudulently ordered by Doonan to state, quote "**Due to Police availability and time this case is closed.**"

Therefore, Martin must now officially in support of the Community Cabinet request **reopen this case**, under the now direction of Prof. Pathè, to ensure the Engineering Arbitration is held in Engineering House Bne., but this time with the approval of the QLS and Qld Bar Association to ensure all legal counsel are credible, **to ensure justice is served.**

8. In closing, this case is based on our experience in prison reform, to be truly multifunctional, to use the SAA style rules and regulations, the TGA with the initial aid of our key sponsor Terry White, previous President of the Pharmacy Guild and then **Minister for Welfare**. Our area of expertise to expand the principle of well-being and quality of life. As a further example, what involvement did Fiona Simpson as a Qld Speaker of Parliament have to do with this case? You could say Simpson is a shining light, but not always, it came with help and experience. At a meeting at the Maroochydore Lifesaving Club, I was given the usual excuse, **'Your case was not relevant to their meeting and please leave or Fiona would call the Police.'** The good news, a lifesaver, in more ways than one stood up and explained, as a local Police Officer, he knew the details of our case and that in brief, my pleas should be answered. The good news, Fiona's parents came to our aid, they both listened to my story and advised **"Your best chance was to go to Church and pray."** So please consider, I went to almost every Church on the Sunshine Coast between Caloundra, Maroochydore and Nambour. My biggest disappointment was the Church of England at Nambour. My reason being, I was told; **"We have faith in our justice system"**. I pleaded; **"But I can prove engineering style perjury"**. In addition, the Rev. Michael Veary, his wife Doris, son Adam and friend were witness to Rob Wilson's extortion and standover tactics, but some years later the Reverend apologised, that due to the ongoing paedophile claims against all Churches, all Churches were in chaos and as a result, the Reverend was unable to gain justice, for **the benefit of superfund victims!**
9. As further proof, the smart mediation section of the QPS directed our first **forensic report** via the criminology students, studying under the direction of Prof. Paul Wilson, as work experience students in Police Headquarters, Roma St. Bne. We found out that Prof. Paul Wilson, a well known Criminologist, is to stand trial for **'indecent dealings'**. In our case, all he had to do was acknowledge our inquiries over the past 14yrs, to assist his students file criminology reports, as requested by the QPS. To this date, he abandoned us and showed no humanity or humility, or any effort to be accountable, also known as **'abuse of public office'** and **'obstruction of justice'**.
10. Hence, we use the term, **'work in progress'**. Prof. Pathè is qualified to confirm what the community accepts; that organised crime is a billion dollar industry. The principle is, that the leaders of organised crime use other people to do their dirty work. Best understood as corruption; **the hidden crime**. Being given legal advice, that Wilson planned to send us bankrupt, to gain fraudulent liquidation. John Koek has confirmed, with a job that was fraudulently extended from 4 to 16mths, **the project was left unattended to prevent final completion**. As Koek put it **"You must finish the project, pay the subcontractors and then lay criminal charges or you could go broke."** Our million dollar volunteered Police budget is proof. To put it in the simplest format, the QPS cannot lay criminal charges on threats alone. For example, the QPS used the excuse:- **"We get death threats all the time, but we ignore them"**. Based on criminology and CIB direction, **patience and time is the solution**. The QPS can only lay charges having all the facts and information, but they must be willing to obtain the facts. This has been achieved by the principle of natural justice. In brief, we let this case run its natural course, as our AMA style of holistic medicine. When you have gained all the information about these racketeering engineering scams, where the current Police Comm. Ian Stewart so wisely said **"Is not racketeering the way business is done?"**, Dr. Pathè will have proved

**JUSTICE WAS IGNORED BY CHIEF JUSTICE DE JERSEY.**

**FOR NEWMAN TO GAIN  JUSTICE FOR ALL.**

To make it legal

  
Signed John Bright

**TO ABANDON, LITIGATE, LIQUIDATE = ALL-FRAUD.**

**CRIME PREVENTION IS THE SOLUTION**
